Poster presentations
Posters presented by first author unless a different author is underlined

Poster session 1: Wednesday 10th September 15.10-16.10

WORKS IN PROGRESS POSTERS:
Note: Authors will stand by their posters and will answer questions.

LONG TERM CONDITIONS

A. Not as you expect: The perspective gap in the home haemodialysis experience
   R. Majeed-Ariss, A. Jayanti, A. Wearden, S. Mitra

B. People with both Intellectual Disabilities and Dementia: Exploring Holistic Care and Support
   D. Herron, H. Priest, S. Read

C. The psychological impact of informal caregiving and the carer-patient relationship in chronic leg ulceration
   P. Tollow, J. Ogden, M. Whiteley

D. Patients’ experiences and management of multiple conditions: A systematic review and qualitative meta-synthesis
   J. McSharry, G. Daker-White, P. Bower, D. French

E. Illness perceptions and psychological well-being in people with differing severities of chronic pain
   R. Lee, R. Tarling

F. Adherence to prophylactic treatment among young people with haemophilia
   S. van Os

G. A phenomenological approach to understanding the impact of chronic ear disease on wellbeing in young people: patient and carer perspectives
   C. Taylor, E. Walklet, B. Mahoney, P. Upton, T. Martin

H. The psychosocial experiences of individuals with hearing loss
   E. Heffernan, N. Coulson, M. Ferguson, H. Henshaw, J. Barry

I. The Effects of Attachment Style on Coping in Individuals with Vitiligo
   C. Tyerman, A. Lavda, A. Thompson

J. Development of the PCOS-QoL: A quality of life measure for women with PCOS
   S. Williams, D. Sheffield, R. Knibb

K. What are patients’ experiences of NHS Specialist Services for adults with CFS/ME?
   J. Broughton, E. Crawley, S. Harris, S. Collin

L. A focus group study to explore children’s attitudes towards peers identified as genetic carriers
   M. Noke, A. Wearden, S. Peters, F. Ulph

M. Long-term emotional and behavioural consequences of major pulmonary embolism: A qualitative study
   R. Lewis, S. Noble, S. Lewis, P. Bennett

INTERVENTIONS & BEHAVIOUR CHANGE
A. The emotional consequences of receiving a new screening test for lung cancer  
L. Bedford, B. Young, D. Kendrick, K. Vedhara, R. das Nair, J. Robertson

B. A secondary analysis of qualitative data of the factors that contribute to patients’ appraisal of symptoms and decision to seek help: Applying the ‘Model of Pathways to Treatment’  
S. Kummer, S. Scott, F. Walter

C. Understanding behavioural insights in the context of the Theoretical Domains Framework – an initial scoping exercise  
A. Sallis, E. Castle

D. The Role of Acceptability in the Engagement in Physical Activity of Older Adults  
A. Devereux-Fitzgerald, R. Powell, D. French

E. Personalized Guidance Services for Optimizing Lifestyle in Teenagers through Awareness, Motivation and Engagement (PEGASO): A Feasibility Study  
L. Condon, N. Coulson

F. The Role of Self-Incentives in Smoking Cessation  
E. Brown, D. Smith, C. Armitage

G. A thematic analysis of experiences of pain management programme shared on internet forums  
V. Juzar, D. Sheffield, L. Chipchase

GENERAL POSTERS  
Note: Authors will stand by their posters and will answer questions

MATERNAL HEALTH

A. Future fathers and male family planning service users: a discourse analysis of male partners’ family planning practices and responsibilities  
A. D. Wilson, B. Gough, F. Fylan

B. Understanding the experiences of mothers who found breastfeeding to be unsuccessful  
A. Fletton, D. Clark-Carter, S. Grogan

C. Breastfeeding: Does it have an impact on cognitive development?  
K. Crosby

D. Don’t ask, don’t get: A randomised vignette-based study of biases in oncofertility provision among medical students  
C. Pinkard, S. Gameiro, J. Boivin

E. Antenatal clinic and stop smoking services staff views on introducing an ‘opt out’ referral pathway for pregnant women to NHS stop smoking services: a qualitative evaluation  
K. Campbell, K. Bowker, M. Sloan, B. Brafman-Price, S. Cooper, F. Naughton, S. Fahy, T. Coleman

LONG TERM CONDITIONS 1

A. Relationships between illness beliefs and quality of life in a rare neurological condition  
A. Methley, C. Pollard, K. Mutch, A. Jacob, P. Perry Moore
S. Hotham, K. Hamilton-West

C. "It takes away your manhood": Exploring men’s accounts of living with Systemic Lupus Erythematosus
T. Pendeke, I. Williamson

D. Choreographing care and struggling against stigma: British Asian patients’ accounts of living with Beta-Thalassemia Major
I. Williamson, R. Iqbal

E. Identifying the needs of rural based informal care givers of palliative care patients through their lived experiences
J. Keenan, R. Rahman, J. Hudson

F. Supporting self-management for people with hypertension: A meta-review of quantitative and qualitative systematic reviews
G. Pearce, A. Schwappach, H. Parke, E. Epiphanióu, H. Pinnock, S.J.C. Taylor

G. Men’s experiences of living with recurrent vertigo: a qualitative study.
S. Kirby

H. Exploring a Primary Care Angina Populations’ Experiences of Using a Web-Based Cardiac Rehabilitation Programme.
R. Devi

I. Type 1 hereditary tyrosinemia (HT1): a qualitative investigation into treatment adherence from the perspectives of patients, their families, and their healthcare team
S. Malik, S. NilMhurchadha, L. Eliasson, C. Jackson, J. Weinman, S. Roche, J. Walter

LONG TERM CONDITIONS 2

A. Taking Internet information to the medical consultation and back again: Exploring the experiences of IBD patients who are members of online support communities
N. Coulson, R. Smedley

B. Patient experiences of enteral nutrition in Crohn’s Disease
Z. Moon, L. Hughes

C. The impact of Polycystic Ovary Syndrome (PCOS) on quality of life: a photovoice study.
S. Williams, D. Sheffield, R. Knibb

D. Using online Skype interviews to explore the impact of Polycystic Ovary Syndrome (PCOS) on quality of life.
S. Williams, D. Sheffield, R. Knibb

E. ‘Stand by me’ - Assisted peritoneal dialysis confers equivalent quality-of-life and emotional well being outcomes to self care peritoneal dialysis for patients and caregivers

F. Psychosocial impact of food and nutrition in people with IBD: A qualitative study
L. Hughes, J. Lindsay, M. Lomer, L. King, M. Morgan, K. Whelan

G. Illness perceptions in Irritable Bowel Syndrome: Change over time and relationship with self-reported quality of life
L. Usher, P. Fox, K. Mitchell
MISCELLANEOUS

A. The effects of an anticipated challenge on diurnal activation of the hypothalamic-pituitary-adrenal (HPA) axis
M. Wetherell, B. Lovell, M. Smith

B. The relationship between structural barriers to adherence to antiretroviral therapy, psychological distress and health-related quality of life
A. Kagee, B. Coetzee, H. Steel

C. What determines intention to undertake physical activity among South Asians aged 60 and over?
M. Horne, R. Emsley, A. Wearden, A. Woodham, D. Skelton

D. Self-efficacy, wellbeing and function before joint replacement surgery
E. Magklara, V. Morrison, C. Burton

E. Marginal Mysteries or Unethical Nonsense? A discourse analysis of how healthcare practitioners negotiate homeopathy
L. Caveney, F. Fylan, B. Fylan Gwynn

F. An interpretative phenomenological analysis of the process of receiving a kidney from a living donor
J. Spiers, J. A Smith, M. Drage

G. The impact of work stress on mental and physical health: is there an association with level of hair cortisol?
H. Boschi, S. Trenoweth, A. Manyande

H. A Cross-sectional study of stress, psychological health and physical health in academic staff in a university in Hong Kong
S. Sze-Yin Wong

I. Which demographic, psychological and social variables predict alcohol consumption and alcohol-related problems?
R. Cooke, J. Barratt
HEALTH PSYCHOLOGY IN ACTION POSTERS:
Note: Authors will stand by their posters and will answer questions.

INTERVENTIONS & BEHAVIOUR CHANGE

A. Attention Training Technique (ATT) - a useful intervention for reducing persistent emotional distress after cancer?
   S. Cook, P. Salmon, P. Fisher

B. Feasibility and Pilot of a ‘Hub’ for Lifestyle Behaviour Change in a Hospital Setting
   L. Gate, A. Clarke, A. Bartley, A. Rodgers

C. #LetTheKeyboardDoTheTalking: Involving young people in the development of an online counselling intervention
   S. Coleman, R. Crabtree, C. Phelps, M. Minou, A. Baker

D. Improving Distress in Dialysis (iDiD): The development of an online cognitive-behavioural therapy (CBT) intervention based on the common sense model

E. Development and piloting of a rating scale for the improvement of the non-technical skills (NTS) of rural and remote pre-hospital care responders during emergency situations
   D. Holly, V. Swanson, P. Cachia, B. Beasant, C. Laird

F. A qualitative analysis of a mindfulness-based intervention for people with multiple sclerosis.
   A. Hughes, A. Bogosian, R. Moss-Morris

G. Long-term outcomes of a pain management programme
   D. Sheffield, A. Turvill, V. Staples, C. Scott, K. Coulson, J. Wyatt, M. O'Donovan

H. Human factors, health psychology and hand hygiene: A Pilot Study Examining the Predictors of Final Year Medical Students’ Hand Hygiene Practices within a Health Care Setting
   L. Sutherland, M. Clark, V. Swanson, K. Stirling, E. Fioratou, J. Ker, P. Cachia

I. Health Behaviour Change Pilot Intervention Study
   K. Bhatti

J. Using a role-play intervention to prevent adolescent alcohol misuse; A PSHE curriculum tool.
   L. Wood, A. Guppy, I. McMurray

LONG TERM CONDITIONS

A. Adjunctive psychological intervention for highly nicotine dependent COPD smokers: Identifying the needs of a complex group
   S. Yin Yap, M. Stern, E. Pang, S. Lunn, C. Croft

B. Developing an evidence-based group intervention to improve self-management of type 1 diabetes in male adolescents
   G. Heath, R. Powell

C. Living with vascular dementia: A narrative analysis on living with vascular dementia
   N. Alkemade, T. Moore
D. Development and evaluation of an online training programme for primary care staff to facilitate a shared understanding of symptom perpetuation in those with Medically Unexplained Symptoms (MUS) and complex Long Term Conditions (LTC)
D. Holly, D. Craig, V. Swanson

E. Chir-Chira-Pan': Is it the same as irritability? Patient perspectives on the translation of depression screening questions into South Asian languages
S. Sharma, R. Mooney, K. Farrington, A. Davenport, C. Day, N. Duncan, M. Da Silva Gane

GENERAL POSTERS:
Note: Authors will stand by their posters and will answer questions

LONG TERM CONDITIONS 3

A. How do illness beliefs map on to the candidacy for care model in Multiple Sclerosis? Experiences of service users and general practitioners
A. Methley, S. Campbell, S. Cheraghi-Sohi, C. Chew-Graham

B. “Things that help us with our life, to manage our condition”: Assistive Technologies in Multiple Sclerosis
L. Squires, V. Morrison, N. Williams

C. Do psychological factors predict asthma control in a student population?
A. Cantwell, R. Knibb, C. Stalker

D. Carers’ experience of uncertainty in chronic illness: A multidimensional concept
C. S. Hurt, S. Cleanthous, M. Beynon, S. Newman

E. Informal carers’ views and experiences of caring for an individual with Multiple Sclerosis: A meta-synthesis of qualitative research
G. Topcu, H. Buchanan, A. Aubeeluck, G. Garip

F. Anger and Quality of Life in Multiple Sclerosis
C. Laing, L. Phillips, C. Cooper, J. Hosie, F. Summers

G. Exploring the acceptability and perceptions of people with COPD to short, belief based messages designed to influence better adherence to medication
C. Moloney

WEIGHT MANAGEMENT

A. Examining the dominant illness representations of obesity among users of a multi-topic online message board
A. De Brun, M. McCarthy, K. McKenzie, A. McGloin

B. Exploring parental decisions to accept a weight management programme for their child: An interpretative phenomenological analysis
S. Williams, E. Olander, L. Atkinson

C. Phenotyping Weight Cycling Individuals—Qualitative Interviews and Preliminary Questionnaire Development
M. Campbell, V. Deary, M. Smith, A. Fielden

D. Do overweight people underestimate the weight of others?
T. Viner

E. Habit predicts fast food consumption in a student population over behavioural control, willingness and intention
R. Syeda, R. Knibb
CHILD & ADOLESCENT HEALTH

A. Assessing adolescents’ illness perceptions – Can we use the adult IPQ-R?
   D. Ghio, R. Calam, F. Ulph, E. Baildam, K. Hyrich, W. Thomson, L. Cordingley

B. The Relationship Between Parental Self-Efficacy and Paediatric Adherence to Antibiotic Medication
   S. Williams, L. Crews, A. MacAdam

C. Group identification and health in high school students
   K. Miller, F. Sani

D. Assessing the effectiveness of implementation intention, goal setting and action planning interventions at facilitating healthy eating behaviours in children: A narrative systematic review
   L. Cowap, R. Povey, D. Clark-Carter

E. Developing and testing the exercise DVD aspect of a multicomponent behavior change project with primary school aged children
   S. Mitchell

INTERVENTIONS & BEHAVIOUR CHANGE

A. Reducing missed hospital outpatient appointments through an SMS intervention: A randomised controlled trial in a London hospital.
   M. Hallsworth, D. Berry, A. Sallis

B. What does it mean to tailor support in a lay health worker intervention?
   F. Hodgins

C. Examination of Therapist Effects (TE) in Shiatsu Treatment of people with Multiple Sclerosis (MS)
   L. Esmonde, A. van Wersch, N. Harland

D. Can Implementation Intentions with Imagery reduce checking behaviours in a non-clinical OCD population?
   M. Chrysostomou, J. Ellis

E. Evaluating the effectiveness of (early) psycho-educational intervention for military personnel with mild traumatic brain injury: A cohort study.
   H. Brunger, J. Ogden

F. Do behaviour-change techniques increase walking in patients with intermittent claudication? A systematic review
   M. N. Galea Holmes, J. A. Weinman, C. White, L. M Bearne

G. Using the COM-B model to understand baseline predictors of adherence to the transdermal rivastigmine patch in Alzheimer’s disease.
   J. Osae-Larbi, S. Malik, S. NilMhurchadha, J. Weinman, A. Muick Cassidy

H. Exploring the effects of written interventions upon individual levels of perceived behavioural control and intentions to engage in health behaviors.
   A. Cousins, C. Phelps

I. Self-help interventions for tinnitus: A systematic review of techniques and effects
   K. Greenwell, M. Sereda, N. Coulson, A. El Refaie, D. Hoare

PAIN
A. Seeing speakers’ gestures can help people to understand their pain
   S. Rowbotham, J. Holler, A. Wearden, D. Lloyd

B. Pain Management Programmes; Understanding gender differences in clinical practice
   K. Tudor

C. A systematic review to inform the delivery of interpreted pain management programmes in the UK
   A. Burton, R. Shaw

D. Managing Pain and Anxiety During Surgery with Distraction – A Randomised Controlled Trial
   B. Hudson, J. Ogden, M. Whiteley

E. Using hand reflexology for pain and anxiety management during conscious surgery – a randomised controlled trial
   B. Hudson, J. Davidson, M. Whiteley

F. Illness Representations, Coping and Psychosocial Outcome in Chronic Pain
   A. Adair-Stantiall
Poster session 3: Friday 12th September 11.00–12.10

GENERAL POSTERS:
Note: Authors will stand by their posters and will answer questions

HEALTH BEHAVIOURS

A. Sexual knowledge, contraception and accessing contraceptive methods among British university students.
   T. Turnbull, P. van Schaik, K. Swainston, A. van Wersch

B. The Relationship Between Binge Drinking and Self-Efficacy for STI-Protective Behaviours in a Sample of University Students
   H. Lee Johnson, I. P. Albery, D. Frings, A.C. Moss

C. The impact of experienced reward and intention on the formation of a flossing habit
   G. Judah, B. Gardner, M. Kenward, B. DeStavola, R. Aunger

D. Differences in Motives for Sport and Exercise among University Students
   J. Williamson, P. Forster

E. Planning is a moderator, but not a mediator of the intention-behaviour relationship.
   K. Gray-Burrows, D. O'Connor, M. Conner, G. Stoet

F. Music use in exercise: an interpretative phenomenological analysis
   R. Hallett, A. Lamont

G. Exposure to a facial-ageing app increases young male smokers' quit-smoking cognitions and intentions: a randomised controlled trial
   D. Aldred, L. Ashley

H. Sensitivity to Reward and Punishment: Associations with Diet, Alcohol Consumption, and Smoking

I. Applying constructs of the Health Belief Model to electronic cigarette uptake among smokers
   F. Sherratt

J. Talking about sunbed tanning: A qualitative interview study
   J. Taylor, A. Lamont, M. Murray

CANCER

A. Assessing the feasibility of a novel ACT-based intervention for cancer survivors in South West Wales
   P. McNamee, J. Rance, D. Fitzsimmons

B. The influence of prior expectation on experience and adverse event (AE) reporting in systemic cancer treatment: Patient views

C. Parent-Child Agreement in Adolescent Survivors of Non-CNS Childhood Cancers: Fatigue and its Risk Factors
   L. Brighton, J. Turner-Cobb, C. Recklitis

D. Using the metacognitive model of emotional disorder to understand persistent emotional distress after cancer.
S. Cook, P. Salmon, G. Dunn, C. Holcombe, P. Cornford, P. Fisher

E. A systematic review of randomised controlled trials to enhance uptake to colorectal cancer screening in low income populations
H. Clayton, H. Dale, A. Keen

F. How do couples cope after localised prostate cancer?
K. Nelson, J. Rance, P. Bennett, D. Fitzsimmons

G. Scoping systematic reviews of cervical screening attendance: what's been found and what's been missed?
M. Kotzur, J. Moroney, K. Pyrz

M. Brown, M. Pearce, S. Bailey, R. Skinner

I. Unmet needs and the experience of distress in cancer outpatients
V. Morrison, M. Holmes, S. Gollins

J. Utilizing the question-behaviour effect to promote bowel cancer screening: A randomized controlled trial
S. Hollins, M. Conner

K. A retrospective exploration of experiences and perceptions of Interferon-alpha following treatment cessation: A qualitative study
K. Smith, S. Norris, S. McKiernan, B. Hynes, H. Irish, C. Quinn, S. O'Mara

L. “I Have HPV:” Personal Unsolicited Stories from The Experience Project
M. Ahluwalia, J. Barnack-Tavlaris, J. Serpico, K. Ports

EATING BEHAVIOUR

A. “They said I'm a square for eating them”: Children’s beliefs about eating fruit and vegetables
R. Povey, L. Gratton

B. Conscientiousness and fruit and vegetable consumption: Exploring behavioural intention as a mediator
A. Wilson

C. Understanding food allergy and intolerance – the patient’s perspective
E. Godfrey, M. Hunter, H. Clayton, S. Till

D. High food allergy management self-efficacy in parents of severely food allergic children is associated with better quality of life
R. Knibb, C. Barnes, C. Stalker

E. Increasing Fruit and Vegetable Consumption in Special Schools: A Food Dudes Programme

F. Context-Sensitivity and Development in Hypothesis-Testing About Food Allergy
S. Croker, R. Knibb, C. Stalker

G. Promotion of fruit and vegetable consumption for young people aged 16 and over – moderating role of impulsivity and message framing (loss versus gain) in effectiveness of statistical versus narrative evidence.
J. Slodkowska-Barabasz, S. Churchill, N. Chmiel
H. Do leaflets that promote physical activity and/or healthy eating for weight management change behaviour? A systematic review.
   V. Lawson

I. Food Labelling – Are we Only Preaching to the Converted?
   A. Spencer

J. Investigating Determinants of Drinking Behaviours and Consequences for Hydration Status
   P. Nirgude, B. Smith, P. Watson, R. Maughan

K. Can improving access to fresh fruit and vegetables (F&V) increase consumption and subjective well-being in emergency food aid recipients attending Foodbanks? - A feasibility study
   E. Prayogo, A. Chater, G. Grimble, L. Cucco, D. Bentley, L. Moore

L. Temporal frame and the consumption of high calorie snacks: Moderating effects of impulsivity
   L. Pavey, S. Churchill

M. An Exploratory Investigation to Determine How Individual Traits, Screen-Watching and Nutrition Knowledge Predict Overeating in University Students
   A. Parsons, L. Whelen

LONG TERM CONDITIONS 4

A. People with CFS/ME reconstructing a sense of self through interactions in online forums
   A. Kennedy, J. Smithson

B. Chronic Fatigue Syndrome (CFS/ME): Social Support and Quality of Life
   R. Murray, J. Tobbell, A. Locke, A Rodriguez

C. "It's just putting oil in your car": Men's narratives of antidepressant use
   K. Gibson

D. The impact of learning in cyberspace on chronic illness: identity, coping and the psychosocial experience
   G. Stevens

E. Young people with diabetes and their peers
   J. Brooks, N. Kime, N. King, F. Campbell, A. Wearden

F. Diabetes-related illness beliefs in british south asians: A mixed methods study
   N. Patel, C. Bundy, C. Blickem, A. Kennedy, C. Chew-Graham, D. Reeves

HEALTH SERVICES RESEARCH

A. “You have to treat the person, not just the mouth”: An exploration of dentist-patient communication
   H. Buchanan, M. Nowak

B. “She looks after our total being”: Managing roles and relationships in a Specialist Community Palliative Care service
   N. King, A. Bravington, J. Brooks, J. Melvin

C. Discussing human papillomavirus in oral cancer: a qualitative study of health professionals
   R. Dodd, L. Marlow, J. Waller
D. Co-production of an Educational Film about Shared Decision Making in Primary Care for Depression

E. The design of a discrete choice experiment to understand medical and non-medical factors influencing clinical decision-making about emergency treatment of acute ischaemic stroke

F. Supporting staff and patients to move towards collaborative care; integration of the Behavioural Health Consultant role into a new model of Primary Care – Nuka
H. Dale, A. Gilinsky

G. Doctor Google will see you now: The impact of internet searching and sharing on the patient provider relationship and Patient satisfaction
M. Matthews, N. Coulson

H. Is there a place for family interpreting in medical consultations?
X. Wang, M. Fazal

I. Exploring the referral behaviours of GPs for patients with chronic kidney disease: a qualitative study
S. Tonkin-Crine, M. Santer, G. Leydon, F. Murtagh, K. Farrington, F. Caskey, H. Rayner, P. Roderick
